OBJECTIVE

Energetic and driven Computer Science student passionate about developing responsive and user-friendly web applications. Seeking an internship or entry-level position to leverage my skills in front-end technologies and software engineering principles while contributing to innovative projects and continuing my professional growth.

EDUCATION

Bachelor of Science, Computer Science   *Expected Graduation - June 2026*
University of North Carolina Greensboro, NC

SKILLS

- **Frontend Development:** JavaScript (ReactJS, TypeScript), HTML, CSS, Redux
- **Backend and Database Management:** Python (Django), MySQL, PostgreSQL
- **Version Control and Collaboration:** Git, GitHub
- **Deployment and Hosting:** Heroku, AWS
- **API Development:** RESTful APIs

EXPERIENCE

IT Technician, Mercy Drive Inc.   *Sept. 2022 - July 2023*
New York, New York

- Installed and updated office hardware and software, ensuring secure and efficient operations.
- Monitored user accounts on both Windows 10 and 11, managing their diverse levels of access and privileges.
- Utilised VPN for remote computer access across multiple locations.
- Provided technical support and resolved hardware/software issues for 45+ staff members.
- Configured and maintained PCs and servers across all departments.

Web Dev and SEO Intern, Screenshop (Acquired by Snapchat)   *Apr. 2020 - May 2020*
New York, New York

- Generated front-end user interfaces with HTML, CSS, Bootstrap and JavaScript.
- Implemented Continuous Integration/Continuous Deployment (CI/CD) on Heroku cloud platform.
- Enhanced site SEO from 71% to 85% in SEO site check-up.

PROJECTS

Smart Weather   *July 2020*

- Designed a responsive Django app with Bootstrap for weather-based clothing recommendations.
- Implemented API requests to retrieve weather and time for global cities.

COVID-19 Tracker   *June 2020*

- Employed BFS algorithm for effective virus contraction tracking in Hollywood using IMDB dataset.
- Utilised chart.js for data visualisation and leveraged a Python web scraper to fetch the latest U.S. Coronavirus statistics.

CERTIFICATIONS

Meta Front-End Developer Professional Certificate   *Jan. 2024*
Harvard CS50's Web Programming with Python and JavaScript   *May 2020*
